Solve each multiplication wheel by applying mental math techniques.

**Name:** .....

**Class:** .....

Write a number on the circle. Multiply the numbers on the wheel with it, write the solution down to the boxes.

The multiplication wheel consists of 12 segments, each containing a number from 1 to 12. The segments are arranged in a circle around a central white circle. The numbers are: 1, 10, 3, 12, 8, 6, 5, 2, 7, 11, 9, 4. Surrounding the wheel are 12 empty boxes for writing the solutions to the multiplication problems.

# Treasure Map

The treasure map is a green island with a yellow path. At the top left, a yellow flag on a pole stands next to a circle containing the number '2'. To the left of the island is a large wooden sailing ship with three masts. In the middle left, a small wooden boat is in the water. On the right side, a red and white striped lighthouse sits on a cliff. Below the lighthouse is a pile of grey rocks. Further down on the right, a woman in a long blue dress stands on the shore. The island is decorated with several groups of green trees. A compass rose with 'N', 'S', 'E', and 'W' is located in the bottom right corner of the map area.

Divide the numbers on the wheel, write the solution on the box.

A circular wheel divided into 12 segments, each containing a number. The center of the wheel contains the number 2. Surrounding the wheel are 12 empty boxes for writing the solutions.

Divide the numbers on the wheel, write the solution on the box.

The wheel contains the following numbers in its segments, starting from the top and moving clockwise: 27, 81, 36, 15, 24, 18, 21, 33, 21, 18, 42, 30, 12.

There are 12 empty boxes arranged around the wheel for the student to write the solutions to the division problems.
